

Commitment to Total Safety Awareness –

As a valued Structure Resources team member, I fully acknowledge our company’s commitment to, and mandate of, focusing on safe behavior at all times.

I understand that practicing safe behavior not only impacts my wellbeing, but the wellbeing of all those I come in contact with.

I recognize that as I step onto a job site, it is my responsibility to make myself and others aware of potential safety hazards. And, to approach my site superiors whenever I see a circumstance that may cause injury or may be unhealthy for me and others.

I know that Total Safety Awareness is a conscious decision, one I will proactively practice while on the drive into work, throughout the day on a Structure Resources client job site, and while spending time with family and friends.

I, _____, am hereby fully committed to having Total Safety Awareness – being safe for myself, and for _____, someone whom I care about and want to be healthy for.
